Accommodation operators banking on domestic tourism

By: Asenati Taugasolo Semu

A number of accommodation tourist businesses are slowly resorting to attract local tourists to make up for their revenue vacuum no thanks to the Coronavirus pandemic.

Predicted to take a huge bite in tourism revenues to the tune of \$170 million tala with international borders lockdown, local tourist operators have been repeatedly advised by Prime Minister Tuilaepa Sailele Malielegaoi to invest in attracting domestic tourists by setting affordable packages for Samoans and their families to utilize their businesses during these treacherous times facing not just Samoa but the entire world.

And the accommodation operators visited by the media last week during the Upolu wide tour organized by the Samoa Tourism Authority are slowly coming around to tap into the domestic tourists.

Uafato supports Constitution amendments

By: Asenati Taugasolo Semu

The village of Uafato Fagaloa supports the Amendment to the Constitution.

This was according to the village mayor, Manoa Vaasaumamao in an interview with the Savali newspaper last week.

“Government with the Prime Minister taking the lead had delivered project after project which has benefitted the country,” said Manoa.

“Samoa is enjoying new roads and bridges, schools, better water and reliable electricity supply through the Government’s hard labor.”

He said this is the testament of an honest Government standing up for the people.

“We have full trust that the Government is making these changes in the interest of the country.”

Manoa said there are objections from other political parties and critics and this is contrary to implications that Government is defying democracy by acting as Dictators.

“Villages have publicly voiced their freedom speech to reject or support the amendments which translates to a free society.”

“The Government has the power to lead the country and they are doing a good job. I don’t think the people complaining can do what the Government is doing in developments and elevating the livelihoods of the people.

Manoa said he is one of the matai sa’o of his family and he thinks that amending the Constitution and the Lands and Titles Bill is very appropriate for our people.

“To us, this amendment is very valid to limit the number of matai sa’o to five.

“I am one of the seven of Manoa chiefly title holders but I’m the one that speaks for all of them.”

And at the end of the day, Manoa says that the answer lies our faith in God “to help us and our Government as we go through the pandemic, and also to guide Samoa in their journey forward.”

Accommodation operators banking on domestic tourism

Taufua Sili Apelu owner of Taufua Beach Fales said this is the best season for Samoa and their occupancy rate at this time of the year is usually 80 percent, but now there are no tourists.

“Our turnover every year is slightly over a million Tala. So since the shutdown about three months ago, we didn’t get \$600,000 of the profits that we were supposed to get during this period,” said Taufua.

“We are getting some guests from around the country who come in the weekends, and some of them are our friends who come to support our business.”

Taufua said they are lowering their accommodation costs and hope to attract more locals.

He said they will offer favorable packages for our people and families.

The Return to Paradise hotel General Manager, Ramona Gilchrist said they put their faith in God and Assistant Manager Melanie Toailoa said in reality they are not making any money at all.

“We only have 10 percent occupancy from what we had previously, and on top of that we lower our room rates.”

Toailoa said they have specials prices for all their customers with ocean beach rooms starting at \$200. She said these rooms were normally \$350 for locals and the standard rate is normally NZ\$300.

The General Manager of the Sheraton Hotel at Mulifanua, Mark Wendt said the resort relies a lot on overseas guests.

“And the fact that we’ve gone from 100 miles an hour to a standstill is a big effect,” said Wendt.

He said they employ about 180 staff all that 180 staff rely on tourism but they haven’t laid off any of them. Instead they’ve cut their working hours to adjust to their financial situations.

“We try to maintain our local markets. It’s a better time to cut costs and review structures to look at procedures and also look at what and what doesn’t fit.

“And that’s our strategy since covid lockdown. We’ve reduced everyone’s working hours, and right now we are all operating 40 percent of our working hours to sustain and cater to the local market. We have some busy weekends.”

On the stimulus package, Wendt said it helped them a lot and they’ve been working with a lot of Government Ministries and also the Samoa Tourism Authority.

Wendt said they are maintaining and keeping up their resort but they need tourists.

“Without the people we are nonexistence. You provide services but you need people to enjoy it.”

Wendt said having the media visited them last week was a great opportunity to further promote their resort locally and overseas.

The Namua Island Beach Fales manager, Tuava Levasa Ieti said the COVID 19 has greatly impact his resort, and they were operating at a full speed before the pandemic.

“We have decrease our accommodation costs from the \$120 per person which was our normal cost.”

Tuava said they want our local people to visit their island and savour the hospitality they offer.

The Maota o Maa beach resort at Tafatafa shares the same story of huge COVID 19 impact on their resort and owner, Alaimoana Esau Roberts said this is beyond anyone’s control.

“We encourage our people to visit our resort, we will not disappoint you.

“We also cater for group visits, like Church groups and family gatherings.”

These interviews were conducted when the local media visited tourist resorts and sites around Upolu last week.

NEW 4 YEAR LEVEL FOR ALL SECONDARY SCHOOLS (Year 9, Year 10, Year 11, Year 12)

PR - Cabinet pursuant to FK (20)21 has approved the implementation of a 4 year level (Years 9, 10, 11, 12) for all Secondary schools. This is a change from the previous 5 year level currently in place for Secondary schools. The current 5 year Secondary curriculum has been re-packaged and reorganised by the Ministry since 2016, to ensure the alignment of curricula standards and learning outcomes are reflected in the four year level shift.

This curriculum development is informed by research evidence and National trends in students' performances over the last 10 years at both Primary and Secondary level. The growing rate of early school leavers after Year 9 has led to this reform. Furthermore, back to back assessment for years 12 and year 13 (particularly boys) in the current 5 year level was also monitored closely by the Ministry. The decline of students' achievements in Year 13 SSLC after sitting the SSC in the previous year indicates a need for an appropriate interventions in between the two National Examinations (SSC & SSLC). Consequently, the 4 year level is a national response to addressing these issues in order to improve students' achievements especially in the last year of Secondary level.

Learning pathways

The implementation of the 4 year level (Years, 9, 10, 11, 12) will commence in 2021 using Year 9 as the first cohort. The provision of four (4) learning pathways (Commerce, Arts, TVET, and Science) will be made important in this 4 year level. Starting from Year 10, students will be streamed into learning areas based on their strengths and interests.

2 Streams of core subjects

Two streams for Mathematics, English and Samoan will be introduced in Year 9. These 2 streams of subjects will enable students to take General Mathematics for all Non-Science students and Mathematics for Science students. The same will apply for English and Samoan so that students are equipped with the relevant skills and knowledge most suitable to their area of study.

Expanding curriculum subjects (TVET subjects)

The Ministry will be developing curriculum subjects and options for students in the area of TVET in the next 2 years. This will see the introduction of new courses such as tourism and hospitality, food and beverages, marine studies, and carpentry. TVET has huge economic potential for the majority of our students when they finish Secondary level.

Changes to assessments

The new 4 year level will introduce new changes in the implementation of assessments. In Year 10 (for 2022) students would sit the SSC assessment that was sat at Year 12 in the current 5 year level. This assessment would no longer be achievement but a diagnostic assessment will identify student's strength as Year 11 interventions. In Year 12 students will sit the SSLC that was sat in year 13 in the current system. This will remain as an achievement test to qualify students for Foundation Entry at the University of Samoa.

Transitioning into the 4 year level

The Ministry will take transitional and phase-

out approach for the implementation of the 4 year level. Students who will be in Year 9 will be the first cohort in (2021), Year 10 (for 2022 will sit SSC) Year 11 (for 2023) and Year 12 (2024 – sit SSLC).

It is anticipated that by 2024, the first cohort (year 9) in 2021 would reach (year 12) 2024 to fully complete the implementation of the 4 year level, and the phasing out of the last cohort for the existing 5 year level.

Awareness and consultation

The Ministry has already begun its awareness programs with School Inspectors recently and School Principals Association to follow by. Unfortunately, Teachers Conference Week for this year was cancelled due to the unforeseen weather and

global pandemic affecting all our programs. It is expected that in Term 3, an awareness program will take place with school principals and teachers for the 4 year level approach.
